FOR IMMEDIATE RELEASE

August 1, 2008

***RoZCoo LLC, Luxury Animal-friendly Accessories Company,
Brings Stylish Eco-consciousness to Men's Fashion.***

NEW YORK, NY (PRWEB) August, 1, 2008 – After specializing in luxury animal-friendly accessories since 2005, RoZCoo LLC (pronounced Rosie Ku) has launched a small collection for men. The line is anchored by the signature Harrison messenger bag. This unique corduroy bag is soft to the touch but sturdy and well-organized. The bag is available in rich colors and quantities are currently limited. In line with the vision behind this brand, all products are 100% animal-friendly and designed with the needs of the user in mind.

RoZCoo products range in retail price from \$16-119. Wholesale prices and ordering information are available upon request, and products are now available to the public for purchase at www.rozcoo.com. For additional information, email info@rozcoo.com.

RoZCoo was founded by Rosemary Ku, an MD/MBA candidate at Columbia University. Besides her science background, she has been working with fashion designers and stylists in NYC since 2004. While accepting that fashion will always include furs and animal skins but armed with a vision that living in style does not require sacrificing animals and millions of dollars, Rosemary aims to open the minds and hearts of the public to a new type of luxury.
